

Vacuum ▶ PVD Thin films ▶ Leak testing ▶ Plasma

Company profile

Vacuum System Solutions

Design

Assembly

Maintenance

Process

We support our customers throughout the lifetime of a project, from the functional requirements analysis to the installation and after sales service :

- Mechanical Engineering
- Electrical Eng. / Software development
- Manufacturing / Assembly
- Process
- R&D
- Logistics
- Customer Service

For over 25 years, Alliance Concept has developed innovative systems and processes, finely adapted to any kind of demanding applications and intelligently customised according to our Customers' needs

Alliance Concept operates both in France and at an international level, for R&D centres and laboratories, SMEs and large groups in a wide range of fields such as **Automotive, Aeronautics, Connectors, Defence, Energy, Jewellery, Medical, Microelectronics, Military, Photovoltaics, Sensors, Watch industry...**

Thin films deposition

- Evaporation
- Sputtering
- Clustertool
- Metallisation
- Retrofit

Vacuum technology

- Plasma treatment
- RGA analysis
- Vacuum degassing
- Inerting & Deoxygenation
- Vacuum chambers

Leak testing

- Automotive / Aeronautics
- Energy
- Refrigeration
- Defence / Medical
- Connectors
